Dear Pocono Waterworks Customers:

March 2011

Re: Swimming Pool Owners

It's that time of year when water customers begin to prepare their pools for summer use. Last year several of our service areas experienced water outages due to hap hazard filling of swimming pools. This year we will need to implement a program to assign swimming pool owners time frames when and how to fill and/or top off pools. This is extremely important to avoid water outages.

Enclosed is the registration form. When filled out and sent to our office, the water company will contact you and provide appropriate days, times and methods for filling and topping off swimming pools. If you do not own a pool but intend to obtain one this summer season, please contact our office.

Generally, the average above ground pool size is 12 ft. to 24 ft. round. Swimming pools can hold anywhere from 3,000 to 9,000 gallons. So please take the time to fill out this important form. You may mail, fax, e-mail or call the office with this information.

Please submit this form no later than April 30, 2011.
